30 SERIES
IP CAMERAS

Take Advantage of Honeywell's 30 Series IP Cameras

Honeywell is taking quality and reliability to the next level with the 30 series line of 2MP and 5MP IP cameras including a 5MP fisheye camera and new 5MP micro dome camera option. The Honeywell cameras, including bullet, fisheye, ball and rugged dome and micro dome cameras offer exceptional picture clarity, flexible system integration, secure data transmission and easy installation.

ONVIF® | S G   **5 YEAR WARRANTY**

SUPERIOR HD IMAGE QUALITY, UP TO 5MP

- Up to 5MP (2560x1920) cameras
- True WDR (120 dB) ensures glare-free images
- True day/night provides vivid color images by day and clear black and white images at night using a removable IR cut filter
- Excellent low-light performance with 2D/3D noise reduction saving storage and bandwidth together with smart codec **
- Contain no content or material from any companies or their subsidiaries prohibited under US **N**ational **D**efense **A**uthorization **A**ct (NDAA) Section 889 and can be used as part of video systems which comply with NDAA Section 889

FLEXIBLE SURVEILLANCE SOLUTION

- A wide range of lenses and zoom options for all types of installations
- H.265, H.264, Smart Codec** and MJPEG supported with triple streaming
- Smart IR Technology provides even distribution of IR LEDs in dimly lit or nighttime scenes
- Water/Dust proof (IP66) and IK10 (model dependent)
- ONVIF Profile S and G compliant
- Stream encryption- camera to Maxpro NVR under AES256 providing secure data integrity and privacy
- People and Intrusion Detection to reduce false alarms in perimeter protection

EASY TO INSTALL AND USE

- Built-in PoE eliminates separate power supply and associated wiring
- 12 VDC inputs where PoE power is unavailable
- Remote configuration, motorized zoom adjustments and auto focus via web client or from the NVR
- Multiple mounting options to support a wide range of security applications
- Multiple language GUI* (9 countries)

ONBOARD VIDEO STORAGE

- Supports microSD (Class 10) card up to 256GB for local video storage (card not included)
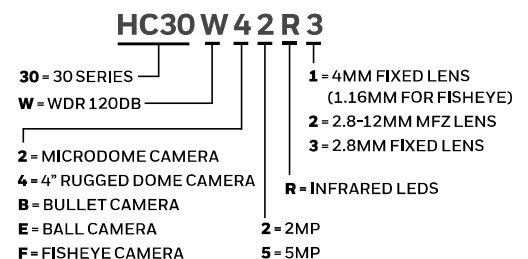

ADVANCED MOTION PEOPLE DETECTION

Advanced motion detection, compared with traditional motion detection which only detects pixel changes and generally has a higher false alarm rate, is designed to detect people and will only generate an alarm when the object is recognized as a person.

MARKET OPPORTUNITIES

These fully featured attractive cameras are perfect for various types of security installations, from complete area coverage with fisheye cameras to high resolution True Day/Night cameras for any scenario. The 30 Series provides excellent picture clarity at minimal bandwidth whilst offering maximum protection against dust and water. Boasting modern designs and offering up to 5MP high definition images, these cameras are suited for a wide range of security applications.

*: Supplied with English, German, Spanish, French, Italian, Japanese, Portuguese , Russian and Traditional Chinese packages, support the customizable language string edit.

**: Smart Codec saves up to 50 percent on bandwidth and storage compared to standard H.264/H.265 (Scene Dependant)
