

3092 Retracting Coordinator

Trimco's 3092 Retracting Arm Door Coordinator (Retractor®) is a modest sized coordinator with a very low profile. The low profile design requires no mounting brackets for stop mounting and goes almost unnoticed when the doors are closed. No mounting brackets are required for stop mounted hardware.

"Retractor" is the copy written trade name for the Retracting Arm Door Coordinator manufactured by Triangle Brass Manufacturing Company.

Functions/Options Features

- 3092 – Retracting Coordinator

Product Features

- Modest sized coordinator with very low profile.
- Rubber rollers for low noise and low friction.
